STATE. POLITICS IN THIS The Subject of Interest to Virgintans Residing in Washington

City-Situation in Culpeper-Internal Revenue Eligibles.

WASHINGTON, D. C., September 20 .-(Special.)-Secretary Olney, who is the only head of a department now here, said to-day he would make the appointment in a few days to the solicitorship of the Treasury, made vacant by the resignation of Professor W. D. Dabney, of Virginia. Although there are quite a number of applications for this choice position, none are being seriously considered, and Mr. W. E. Palson, of North Carolina, who is Chief of the Consular Bureau of the State Department, as previously mentioned in the Dispatch, ill be advanced to the office, as he is familiar with its duties. His appointment is in the line of promotion.

Deputy-Collector William H. Tyler, of the internal revenue office in your city, arrived here this morning, and during the day visited the department here, and had consultations on various matters with the heads of bureaus. He was to have been accompanied by Collector Ryan, but as Commissioner Miller has not returned from West Virginia that gentleman deferred his visit. Mr. Tyler left for home this evening. left for home this evening.

VIRGINIA POLITICS. Political affairs in Virginia are begin-ning to excite a lively interest among residents from that State and others residents from that State and others in this city. Occasionally, statesmen from the northern section of the State drop in here, and the news they bring and the views they express are eagerly sought after. The arrival last evening of Mr.

views they express are eagerly sought after. The arrival last evening of Mr. Richard Lewis, who is the Democratic nominee for the House of Delegates in Culpeper, drew together quite a number of Virginians in the drugstore of Dr. Harper, which is headquarters for them, the Doctor being the secretary of the Virginia Democratic Association here.

Mr. Lewis is opposed to Mr. Catlett Gibson, who runs as an independent; but, as the former has been absent in New York since his nomination he was not very well posted as to the situation in Cupeper, until informed by parties he met here. He is a wealthy man, and he stated that upon his arrival at home he would begin a house-to-house canvass of the county, and that he would spare neither time nor money from now until the day of election. The fight in Culpeper will be a notable one in the canvass this fall.

It is stated here that Mr. D. C. Hatcher,

The result of the civil-service examinations made by the commissioners in Virginia and North Carolina for the purpose of securing eligibles in the Internal Revenue Service, was made public to-day, as follows:

General Fitz Lee's District: Total number of applicants for clerkships, 7, only 2 passed: storekeepers and gaugers, 14, only 2 passed: storekeepers and gaugers, 14, only 2 passed:

mond District: Out of a total number of 20 applicants, all of whom were

present, none passed.

Asheville, (N. C.) District: Applicants for cierkships, 12; 5 passed. Storekeepers and gaugers: Of 33 applicants, 27 failed.

Raleigh (N. C.) District: Eight clerks stood examination, and 2 passed. Store-

epers and gaugers: Fourteen exam-The result of the examinations is un-

satisfactory to the commissioners, who expected to find a more competent set of applicants. It is the intention of the intention of the applicants. It is the intention of the department and the commissioners to hold another examination in these districts in the near future for the purpose of increasing the number of eligibles, as the demand to fill vacancies caused by death and resignation wil, in a short time, exhaust the present list.

Applicants can secure all information by dropping a postal card of inquiry to the Revenue Collector of the district in which they reside.

ARMS FOR THE COMMODORE. It Is Suspected That They Are Also for Cuba.

WASHINGTON, D. C., September 20.— The Department of Justice is to-day in receipt of information, through official channels, that 450 boxes of ammunition and 20 boxes of rifles, in special car No. 5841, over the Pennsylvania railroad, have been shipped to Southport, N. C., to be transferred to the steamer Commodore.

The Commodore is the same steamer re-

N. C., and loading with arms for the United States of Colombia. It is suspect-ed that the real destination of the arms

Acting-Attorney-General Conrad telegraphed United States District Attorney Aycock and United States Marshal Carl-ton, calling their attention to the facts, and instructing them to see that no vio-lation of the neutrality laws of the United

States is committed.

The fact, however, is that the shipment of arms is a legitimate traffic, which can carried on at the shipper's risk even In time of war, and no state of war has yet been proclaimed in Cuba. The enlist-ment of men for service against a foreign power is prohibited, but no restric-tion is imposed on the shipment of arms either by international law or the statutes of the United States. Should an attempt be made to land these weapons in Cuba for the use of the insurgents, and should the Spanish officials capture them, that will be the shipper's loss, but no claim would lie against the United States for breach of neutrality laws.

STEAMER SEIZED-MEN ARRESTED. WILMINGTON, N. C., September 20.— Under the instructions from the Department of Justice, Washington, D. C., to United States District-Attorney Ayeock, the steamer Commodore, at this port, from New London, Conn., was to-day seized by United States Deputy-Marshal Bunting, and the captain and crew of the vessel were placed under arrest, pending an examination, to take place to-

States of Colombia. - The ostensible pur pose of her visit here was to replenish her coal-bunkers and repair her machin-ery. Thursday, however, she received and took on board two car-loads of and took on board two car-loads of boxes, supposed to contain arms and numunition for the Cuban insurgents. The boxes came by express from New York, each box marked, "Charles Raymond, Southport, N. C."

THE STATE OF TRADE. Financial Difficulty Not Removable by Bankers.

NEW YORK, September 20.-Messrs, R. G. Dun & Co., in their weekly review of

trade to-morrow, will say: The movements of exchange and of gold have somewhat affected all markets this Exchange has fallen, though not week. Exchange has fallen, though not because commercial bills have greatly in-creased, and the exports of specie, though diminished, will reach about \$2,400,000. It is confidently believed that the interna-tional syndicate will allow no financial disorder, and many are certain that an issue of bonds will come. But the root of the difficulty is not removable by bankers—namely, that merchandise exbankers—namely, that merchandise ex-ports disappoint the government and the syndicate, failing to meet the cost of merchandise imported, and leaving a heavy balance to be paid abroad. Au-gust imports exceeded exports by \$15,252,-729, and the net exports of gold were \$15,153,782.

A small cotton crop, with large stocks held abroad, a slender demand for At-lantic wheat, with Russian arriving in lantic wheat, with Russian arriving in London in large quantities, and merchandise exports and imports at New York 30 per cent, larger than last year in September, thus far scarcely promise speedy change. The volume of domestic trade measured by exchanges—20 per cent. greater than last year, but 9.8 per cent. less than 1892—is not quite as near the record of full prosperity for September as for August and July. In spite of gold as for August and July. In spite of gold exports, wheat advanced for some days in all nearly 2 cents. Corn rose and fell in sympathy with wheat, with as little reagon. Western wheat receipts for three weeks of September have been 16,791,696 bushels, against 16,491,623 last year, while Atlantic exports, flour included, have been 3,941,694 bushels, against 7,321,986 last

Good reports of foreign crops, the weakness of flour in Minnesota, and large exports of corn from this country, all work against a rise in wheat, though the scarcity of contract grades may help a

speculative advance.

The cotton market, rising and falling a fraction each day alternately, shows no settled tendency, big stocks balancing an undoubted but as yet not definite dease in yield.

The surprising increase in production and the advance in prices of iron seem to be bringing a natural check, as prices have gone so high as to cause some purchases from Europe, both of pig and of finished products, and have also caused a distinct shrinkage in home demand. The cotton-mills which laid in stocks of

CHENG-TU INVESTIGATION.

The Opposition Thereto Withdrawn. Membership of Commission.

Membership of Commission.

WASHINGTON, D. C., September 29.—
The Chinese Government has withdrawn its opposition to the proposed investigation on the part of this government of the missionary riots that occurred at Cheng-Tu, in the province of Sze-Chuen, Western China.

British missions suffered more seriously than did ours, the lives of British subjects being taken and much property being destroyed. This government asked the English to join with them in conducting the investigation, a request that was acceled to at first, but so much delay was manifested that the United States finally decided to make the investigation unaided. The Chinese Government entered a strong protest against this, but the dispatch received this morning indicates that the objections have been overcome, and everything promises the scouring of a rigid investigation, fixing the responsibility for the outrages and the compensation of those who have suffered.

It was understood that Minister Denby would have a missionary placed on this commission, but this plan appears to upon that subject, but Minister Denby, in a telegram received to-day, states that the commission will start at once.

The members of the commission are Sheridan P. Read, Consul at Tien-Tein; Commander F. R. Barber, naval attache at Tokio, and Fleming D. Cheshire, interpreter of the United States Legation at Peking.

Mr. Cheshire will act as recording secretary, and keep the records of the com-

terpreter of the United States Legation at Peking.

Mr. Cheshire will act as recording secretary, and keep the records of the commission, upon which the Chinese will also have a representative.

The Cheng-Tu riots occurred late in the spring, but, ewing to the great distance from the coast and the inaccessibility of the place the news did not reach the telegraphic ports until many weeks had elapsed. No American lives were lost in this riot, but American mission property was destroyed.

Cheng-Tu is one month's travel from Tlen-Tesin. The methods of travel are primitive and laborious, but the commission will have the advantage of cool weather, and will thus be able to get through much earlier than if they had reached Cheng-Tu in midsummer.

A Tampa (Fla.) dispatch of Thursday says: Among the passengers from Cuba to-night was John Sowers, a Virginian, which has lived in Cuba for thirty years, and has a a a cubable sugar plantation near Sagua. On August 25th he, with Senor Alayas and his two sons, all American citizens, were seized, and after being taken before the commandante they were thrown into prison, where they were kept for ten days, the first two being spent in a loathsome dungeon, no communication with their families being allowed.

Mr. Sowers was released by direct order

Mr. Sowers was released by direct order of General Campos, who commanded him to leave the island within twenty-four hours. This order had to be obeyed, regardless of business affairs.

When Sowers reached Havana the American Consul desired him to protest, but he preferred to get beyond Campos's reach before doing so. He goes direct to Washington to-night to enter a protest. Mr. Sowers says he has no idea what was the cause of his arrest, and declares himself innocent of any violation of the laws. He will not return to Cuba while she is under the Spanish flag, and will make speedy arrangements for his wife and four children to follow him here.

STOLE MRS. LANGTRY'S GEMS. Bearer of Forged Order Gets Them During Her Absence.

A London telegram of recent date says: During the absence of Mrs. Langtry on the Continent a forged order was pre-sented at the Sloan-Street Branch of the Union Bank for her jewel-box, which contained 200,000 worth of jeweis. The hox was delivered to the bearer of the order. Mrs. Langtry returned home a few days ago, and to-day she sent to the bank for her jewels, when she learned that the box had been delivered on August 24th. Mrs. Langtry immediately drove to the office of her legal adviser, and Scotland Yard was at once notified of the robbery. Up to the present time no trace has been found of the missing jewels.

THE * APPROACHING CONVENTION IN NORTH CAROLINA.

Pritchard Will Attend-An Interview with Smith, the Chief Promoter-What He Claims Is the Object-No New Party.

RALEIGH, N. C., September 20 .- (Special.)-Senator Pritchard will attend the sliver convention here next Wednesday. Ed. Chambers Smith was specially interviewed this evening regarding the convention, and said it would meet at 11 o'clock at Metropolitan Hall, that a large number of Democrats would attend, and that there are no fears on their part that any political party will control or attempt to control the convention, which, he declares, will be merely a conference of the friends of silver. No one need remain absent, he said, for fear of being committed contrary to his opinions. Smith said further: "The convention is really what it purports to be-a conference of the friends of silver. No matter how much the gold-bugs may oppose it, the people who favor silver in the main are coming to it. The Democrats of Cumberland county have with more are coming to it. The Democrats of Cumberland county have with more unanimity than those of any other en-dorsed it, and it appears that the largest representation will be from that county.

NO NEW PARTY. "I do not see why any Democrat standing on the State platform should hesitate to attend and openly express advocacy of bimetallism. There is no intention, so far as I can learn, to commit any one against his will to any resolution for a new party. I do not think the Populists have planned to do it. It is the general sentiment that nothing will be done which will put the Democrats in a nole, as has been intimated. The conas has been intimated. The con-ice will be one of silver men, and not of politicians

stay in the mountains.

The chief organ of the Republicans in this State, in its issue to-day, ridicules the sliver non-partisan convention which is to meet here next Wednesday, and says: "It attracts very little attention says: "It attracts very little attention in the Piedmont section. The Populist leaders now make no secret of the fact that they are making great efforts to induce a crowd of their people to come to Raleigh next Wednesday to the silver convention. It is also quite noticeable that the Populist leaders express their delight at the expressed sentiments that the convention will result in the disruption of the Democratic party, and in the coming together of the bulk of its voters in the "silver party" which is at once the aspiration and the hope of all the Populists.

Address, with terms and particulars, C. and B., Dispatch office. se 20-21* Pearisburg Democratic Legis'ative Convention. They report that the convention was most harmonious, and that Mr. James W. Williams, the nominee for the James W. Williams, the nominee for the House, is a very strong and popular man. He is a leading merchant and farmer at Pembroke, in Giles county, and an elegant gentleman. His nomination was by acclamation, and he will be elected, carrying both Giles and Pulaski by an immense majority. His nomination secures a united Democracy. No reference was made to the currency or senatorial questions. Perfect harmony was the one thing desired.
